

Drew Johnson

UX CONTENT STRATEGY · CONTENT SYSTEMS · AI GOVERNANCE

rdrewj@icloud.com | 415-308-1665 | rdrewj.com | Marin County, CA

PROFILE

UX content strategist with 15+ years in content and editorial roles, including financial services and healthcare. Builds information architecture, writing standards, and governance that help teams deliver consistent content at scale. Combines editorial judgment with AI-assisted workflows, stakeholder alignment, and hands-on product delivery.

EXPERIENCE

Senior Manager, UX Content Strategy

Charles Schwab · San Francisco, CA | Mar 2021 - Present

Content lead for UX Creative Direction, spanning design-system standards, AI-assisted content workflows, and product experiences.

- Built the inventory, search-term mapping, and QA process that helped scale Answer Widgets from a 50-widget pilot to 500+ answers, reaching the delivery target six weeks early. The library recorded 101,419 widget views in February 2022.
- Established the editorial standard and AI-assisted revision workflow for a competency framework spanning product, design, content, and accessibility. Integrated stakeholder feedback and maintained coherence across levels; the framework received executive approval and supports the 2026 performance-review cycle.
- Migrated the UX writing guide from fragmented SharePoint pages into the Everest design system. Led content structure, editing, and publishing coordination; monthly visits rose from roughly 12 to 100+. The guide also became the knowledge base for an AI writing agent in active use.
- Facilitated cross-functional discussions with UX, Legal, and Product to identify AI-generated content risks and requirements for standards that AI tools can use.
- Owned UX content strategy for mobile trading, banking, and account management; led content for a new bank lending product from development through delivery.
- Managed and mentored four contract and full-time content strategists.

UX Content Designer

Wells Fargo · San Francisco, CA | Mar 2020 - Mar 2021

Designed UX content for retail experiences, including COVID-19 relief and small business products.

Content Designer

Uber · San Francisco, CA | Jan 2020 - Mar 2020

Wrote and edited customer support content.

EXPERIENCE, CONTINUED

Digital Content Manager

McKesson · San Francisco, CA | Dec 2015 - Dec 2019

Content lead for the digital center of excellence, overseeing pre-sale product content across McKesson.com.

- Led a 1,500-page content audit and phased enhancement program across five business units. Delivery included 84 enhanced solution pages, 44 consolidated pages, three new needs-based hubs, and 11 revised or new business-unit About Us pages.
- The final program report recorded an 82% year-over-year increase in form leads on enhanced pages. Led the enhancement framework, editorial standards, stakeholder alignment, and rollout in partnership with the content agency and business-unit teams.
- Led creation of a 60-page digital writing guide that reconciled brand voice with search requirements and defined page purposes, content patterns, and shared vocabulary.

Earlier editorial and product roles

Healthline · Wells Fargo · Praetorian Group · Columbia Books | 2007 - 2015

Managing Editor, Healthline.com; Product Manager, Wells Fargo; Staff Editor, Praetorian Group; Staff Editor, Columbia Books and Information Services; earlier staff writing and editing roles.

INDEPENDENT AI PRODUCT WORK

CSX Audit & Copy Clinic | Case study at rdrewj.com

Designed and shipped two prototypes using the Anthropic API and Vercel: an information-architecture auditor that combined crawl data and deterministic metrics with AI analysis, and a UX copy critique tool that returned structured feedback and rewrites.

Defined prompts, evidence requirements, scoring rules, and interaction design; implemented safeguards for URL fetching and API usage. Public endpoints are retired; source code and case-study documentation remain available.

CORE CAPABILITIES

Strategy: Content strategy and design; information architecture and taxonomy; content audits; voice and tone; editorial standards; design-system content; content governance.

Leadership & delivery: Stakeholder alignment; cross-functional delivery; mentoring; AI-assisted editorial workflows; prompt design and human review.

Tools: Adobe Analytics, Google Analytics 4, Figma, Contentful, Drupal, Anthropic API, GitHub, Vercel, HTML/CSS.
